Assistant / Associate Instructor
Biology Program
NYU Abu Dhabi

The Biology Program in the Division of Science at New York University Abu Dhabi (NYUAD) invites applicants for several Assistant / Associate Instructor positions starting in August 2016. Applicants should have a masters or bachelors degree in Biology with a focus on molecular and cellular biology. An ideal applicant would have teaching and research experience and be an excellent communicator both orally and in writing in English.

The instructors will support NYUAD's educational mission by instructing in lecture and laboratory courses in the biology major and the integrated science curriculum for all science majors at the University. Instructors will teach recitation and laboratory sections and run review sessions, among other duties. Instructors will undergo training prior to the start of each academic year and appointments will be for up to three years, with the opportunity to renew.

Instructors are also encouraged to join one of the NYUAD Biology research groups. For more details on research in the NYUAD Biology program, please visit http://nyuad.nyu.edu/en/academics/academic-divisions/science/biology.html Instructors will also be eligible for professional development opportunities such as attending scientific conferences.

Salaries are extremely competitive with a generous benefits package and housing provided, pending budgetary approval.

Applications are open until January 15, 2016. To be considered, applicants should submit a cover letter and curriculum vitae. They should also submit two reference letters, including at least one from a current or former Professor. Please visit our website at http://nyuad.nyu.edu/about/careers/faculty-positions.html for instructions and other information on how to apply. If you have any questions, please e-mail nyuad.science@nyu.edu.

About NYUAD:
New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complimented by a network of eleven research and study-away sites across five continents. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its sixth year, NYU Abu Dhabi has recruited a cohort of faculty who are distinguished in their research and teaching. NYU Abu Dhabi’s highly selective liberal arts enterprise is complemented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.
