Assistant/Associate Instructor
Chemistry
NYU Abu Dhabi

The Chemistry Program of the Division of Science at New York University Abu Dhabi (NYUAD) seeks to appoint several Assistant/Associate Instructors starting in August 2015. Applicants interested in teaching at the undergraduate level in physical, analytical, organic, inorganic, and biochemistry are encouraged to apply. A bachelor's or master's degree in chemistry is required. Prior teaching, especially at the undergraduate level, and research experience is preferred. Excellent written and oral communication skills in English are essential.

The instructors will support NYUAD’s educational mission by instructing in the lecture and laboratory courses that are part of the chemistry major and the integrated science curriculum for all science majors at the University. Instructors provide assistance with the preparation, development, instruction, and assessment in chemistry courses by teaching laboratory and recitation sections, running review sessions, and taking part in chemistry program activities, among other duties. During January Term and Summer, instructors support teaching and research through a variety of activities that may include research with a faculty member or conducting instructional enhancement projects, or both. Instructors undergo training prior to the start of each academic year. Appointments are up to 3 years in duration with the opportunity to renew.

New York University has established itself as a Global Network University -- a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three degree-granting campuses: New York, Shanghai, and Abu Dhabi, which are complemented by eleven additional academic centers across five continents. Faculty and students will circulate within the network in pursuit of common research interests and cross-cultural, interdisciplinary endeavors, both local and global.

Entering its fifth year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complemented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.

The terms of employment are competitive with a generous benefits package, including housing.

To be considered, all applicants must submit a cover letter, curriculum vitae, and three letters of reference, all in PDF format. Please visit our website at http://nyuad.nyu.edu/about/careers/faculty-positions.html for instructions and information on how to apply. Applications are open until January 15, 2015. If you have any questions, please e-mail nyuad.science@nyu.edu.

NYU Abu Dhabi is an Equal Opportunity/Affirmative Action Employer.
