New York University Abu Dhabi (NYUAD) is currently inviting applications for fully-funded Postdoctoral positions in Psychology. Applicants with a background/interest in working memory, attention, or cognitive control are encouraged to apply. Terms of employment include competitive salary and benefits such as relocation, housing, travel stipend, and education subsidies for children.

The current postdoctoral positions are in the lab of Assistant Professor Kartik Sreenivasan, who is establishing a research program with the objective of uncovering the neurobiological basis of working memory. This research program focuses on dynamic coding of information within different brain regions as well as interactions between brain networks, and involves collaborations with Psychology faculty at NYU New York. Research techniques employed in the lab include functional MRI, MEG/EEG, and TMS. In addition to supporting the research of the principal investigator, successful candidates will be encouraged to develop independent research projects as part of training for an independent research career.

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai. The Psychology group at NYUAD is rapidly growing, with four tenure-track faculty and several anticipated near-term hires. Psychology faculty share links with faculty at NYU New York and other top universities worldwide.

Candidates must hold (or be close to completing) a Ph.D. in Psychology, Neuroscience, or a related field. The ideal candidate will have a strong publication record, a background in neuroimaging and statistical inference, and experience with pattern classification and connectivity analyses. Strong computational skills and experience with Matlab, Python, or equivalent programming languages are a plus.

The positions are open immediately and applications will be considered on a rolling basis. Applicants must submit curriculum vitae and a statement of research interests. To complete the online process, applicants will be prompted to enter the names and email addresses of at least two referees. The referees will be contacted to upload their reference letters. Please visit our website at http://nyuad.nyu.edu/about/careers/faculty-positions.html for instructions and information on how to apply. Questions about the application process should be directed to nyuad.science@nyu.edu. Please contact kartik.sreenivasan@nyu.edu with any other questions.

NYUAD is an Equal Opportunity/Affirmative Action Employer.
