FACULTY POSITIONS
Mechanical Engineering
NYU Abu Dhabi

New York University Abu Dhabi (NYUAD) seeks to recruit tenured/tenure-track faculty in the Mechanical Engineering (ME) programs who are distinguished in both their research and teaching. As a part of a major multi-year growth plan, the following areas are of particular interest at the present time: Robotics, Mechatronics, and Biomaterials. Interest in applications of additive manufacturing is a plus.

NYUAD has close collaborations with the faculty and students of the NYU Polytechnic School of Engineering and has access to world-class research centers and research infrastructure, especially in materials characterization and additive manufacturing. Our students are drawn from around the world and surpass all traditional academic benchmarks.

Candidates with a strong record of interdisciplinary research in emerging areas are preferred. Candidates must have a PhD degree in ME or related disciplines and must have the ability to develop and lead high-quality research and attract external funding.

Review of applications will begin December 15, 2015, and shortlisted candidates will be invited for visits at the beginning of the Spring 2016 semester. Candidates should submit a cover letter, *curriculum vitae*, and statements of teaching and research interests. To complete the online process, applicants will be prompted to enter the names and email addresses of at least three referees. Senior candidates are not required to submit references at this time.

Please visit our website at [http://nyuad.nyu.edu/en/about/careers/faculty-positions.html](http://nyuad.nyu.edu/en/about/careers/faculty-positions.html) for instructions and other information on how to apply. If you have any questions, please e-mail nyuad.engineering@nyu.edu.

*About NYUAD:*
New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complimented by a network of eleven research and study-away sites across five continents: Accra, Berlin, Buenos Aires, Florence, London, Madrid, Paris, Prague, Sydney, Tel Aviv, and Washington. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its sixth year, NYU Abu Dhabi has recruited a cohort of faculty who are distinguished in their research and teaching. NYU Abu Dhabi’s highly selective liberal arts enterprise is complemented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering. The Institute will invest significant funds in creating a hub for research related to social, economic, and political development in the broader region; applications from candidates with an ambition to contribute to this agenda are especially welcome.
