New York University Abu Dhabi invites applications for non-tenure track faculty positions at the rank of Assistant, Associate, or Full Lecturer, depending on experience, for appointment to its Division of Science. We encourage applications from candidates with strong interests in teaching and outstanding records of scholarship. The successful candidate will instruct laboratory-based courses in physics and contribute to the Foundations of Science series, which is an integrated science experience for undergraduates, that fuses fundamental concepts of chemistry, physics and biology. An ability to think creatively about teaching is required. Opportunities for professional development are available.

The terms of employment are competitive and include housing and educational subsidies for children. The appointment might begin as soon as September 1, 2016.

Review of applications will begin March 15, 2016; and the positions will remain open until filled. We will consider senior candidates on a rolling basis. To be considered, candidates should submit a curriculum vitae, statements of research and teaching interests, no more than three representative publications and three letters of reference, all in PDF format. When submitting references you will be asked for the contact information of your reference authors, who will be directly solicited to submit their letters through our online system. Please visit our website at http://nyuad.nyu.edu/about/careers/faculty-positions.html for instructions and other information on how to apply. If you have any questions, please e-mail nyuad.science@nyu.edu.

About NYUAD:

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complimented by a network of eleven research and study-away sites across five continents. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its sixth year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complimented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.
