NEW YORK UNIVERSITY ABU DHABI
PAID STUDY

Name of study: Electrophysiological investigation of language processing

Purpose of study: This study is designed to investigate how language is processed by the brain.

Experimenter: Dr. Liina Pylkkänen and her research associates

Location: NYU Abu Dhabi, Center for Science and Engineering Musaffah, Abu Dhabi, UAE

Transportation: Transportation will be provided to the lab.

Requirements: You must be 18 years of age or older.
You must be a native speaker of English.
You must have normal or corrected to normal vision without glasses (soft contacts are ok).
You must not be colorblind.
You must be right handed.
You cannot have a history of brain injury or brain surgery.
You cannot have any linguistic or cognitive impairment.
You cannot have a history of brain disorders, such as epilepsy, or brain abnormality.
You cannot have any non-removable metal embedded in or on your body (such as braces, permanent retainers, etc.)

Type of activity: You will say words out loud, and answer questions about them, while your brain activity is non-invasively and passively recorded using MEG and EEG. The experiment takes up to 2 hours (plus 1 hour for transportation).

Payment: 30 Dirhams per half hour
