FACULTY POSITIONS
Biology
NYU Abu Dhabi

The Division of Science and Mathematics at New York University Abu Dhabi invites applications for multiple faculty positions in biology (open rank, tenure or tenure-track). We are seeking individuals with a history of outstanding accomplishments in research and scholarship, with commitment to teaching and guiding undergraduate research projects as well as advising graduate students. To complement strong, existing programs developed by NYU Abu Dhabi faculty and faculty from NYU in New York, we particularly encourage applications from candidates with research interests in ecological/environmental genomics, population biology and evolutionary genomics, computational biology and neurobiology. The successful candidates will have priority access to the NYU Abu Dhabi High Performance Computing facilities and the NYUAD core facilities for microscopy, molecular biology, genomics and analytical chemistry. The successful candidate will receive a competitive research setup package and will have the opportunity to compete for research support from US Government agencies.

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three degree-granting campuses - New York, Shanghai, and Abu Dhabi - complemented by twelve additional academic centers across five continents. Faculty and students will circulate within the network in pursuit of common research interests and cross-cultural, interdisciplinary endeavors, both local and global. The Division of Science and Mathematics at NYU Abu Dhabi will be housed in the new campus currently under construction on Saadiyat Island adjacent to Abu Dhabi.

Entering its third year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complemented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.

The terms of employment are very competitive and include housing as well as educational subsidies for children. Faculty may also spend time at NYU New York and other sites of the global network, engaging in both research and teaching opportunities. The appointment might begin as soon as September 1, 2013, but candidates may elect to start as late as September 1, 2014 when the campus will move to its new site on Saadiyat Island.

Selection will begin November 1, 2012; applications received after this date are not guaranteed consideration but may be reviewed until the positions are filled. We will consider senior candidates on a rolling basis. Candidates should submit a curriculum vitae, statements of research and teaching interests (not to exceed three pages each), no more than three representative publications and three letters of reference in PDF format. Please visit our website at http://nyuad.nyu.edu/human.resources/open.positions.html for instructions and other information on how to apply. If you have any questions, please e-mail nyuad.science@nyu.edu.

NYU Abu Dhabi is an Equal Opportunity/Affirmative Action Employer.
