New York University Abu Dhabi (NYUAD) is searching for Global Academic Fellows (GAFs) specializing in engineering to participate in its highly-selective Global Academic Fellowship Program. This Program is designed for young professionals who have recently completed their academic study, have a passion for their discipline and wish to share this enthusiasm with high-achieving international students.

The Global Academic Fellowship Program provides unique opportunities to explore teaching, work closely with faculty, serve an international population, gain administrative experience, and enhance a developing university community both as a leader and community member. GAFs provide academic support and enrichment to the outstanding student body of NYUAD who herald from over 100 countries and speak nearly 100 distinct languages. GAFs ensure that these students not only succeed but excel in their academic and personal development.

Engineering GAFs support foundational-year engineering courses by providing laboratory assistance, one-on-one tutoring support, and small group review sessions. In addition to academic support, GAFs frequently partner with various departments to enhance the services provided to students and faculty as well as to develop skill-sets to prepare them for their post-fellowship endeavors.

Previous GAFs have been admitted to graduate schools and professional programs at distinguished institutions (NYU, Harvard, Rockefeller, Yale, Columbia, and NYU Polytechnic). Others have been inspired by their GAF work and have chosen to pursue careers in higher education administration, from career development services to special events management, from student life coordination to academic program management.

**HIGHLIGHTS**
- $25,000 fellowship stipend
- Housing provided
- Round trip transportation to Abu Dhabi
- Health benefits
- Relocation and transportation allowances

QUALIFICATIONS AND EDUCATION REQUIREMENT
Minimum of a Bachelor’s degree
Excellent academic record (minimum 3.5 cumulative G.P.A.)
Specialization, major, and/or tutoring experience in discipline of application
Demonstrated dedication to student learning and achievement

EXPERIENCE REQUIREMENTS
Tutoring experience preferred but not required

APPLICATION REQUIREMENTS
Please submit the following
1) Resume
2) Statement of purpose (500-1000 words) that covers
   - Why you are interested in this position
   - How you see yourself contributing to the academic environment at NYU
   - How this fellowship will help you develop and achieve your short and long-term Goals.
3) All university-level transcripts (Bachelor's, and, if applicable, Master's)
4) Name and contact information for three references who may be asked to submit a letter of recommendation at a later date (two of whom should be faculty and/or research supervisors)

Applications will be accepted beginning April 29, 2015 and the priority deadline is June 15, 2015. Applications will be accepted until all positions are filled.
