New York University Abu Dhabi (NYUAD) seeks to recruit tenured/tenure-track faculty in the Civil and Urban Engineering (CUE) program who are distinguished in both their research and teaching. As part of a major multi-year growth plan, the following areas are of particular interest at the present time:

2. Environmental Engineering (especially Water Treatment and Desalination).

NYUAD has state-of-the-art research facilities in a new 15 acre campus on Saadiyat Island in Abu Dhabi, UAE. In addition, the Engineering Division of NYUAD has close collaborations with the faculty and students of the NYU Tandon School of Engineering and has access to world-class research centers such as the Center for Urban Science and Progress (CUSP) in New York. Our students are drawn from around the world and surpass all traditional academic benchmarks.

Candidates with a strong record of interdisciplinary research in emerging areas are preferred. Candidates must have a PhD degree in CUE or related disciplines and must have the ability to develop and lead high-quality research and attract external funding. It is expected that the successful candidate will become a Global Network Professor of NYU and have access to doctoral programs and colleagues at the NYU Tandon School of Engineering.

Review of applications will begin November 15, 2016, and shortlisted candidates will be invited to visit the campuses in Abu Dhabi and New York in the Spring 2017 semester. Candidates should submit a cover letter, curriculum vitae, and statements of teaching and research interests. To complete the online process, applicants will be prompted to enter the names and email addresses of at least three referees. Each referee will be contacted to upload their reference letter only if the candidate is shortlisted for further consideration.

Please visit our website at http://nyuad.nyu.edu/en/about/careers/faculty-positions.html for instructions and other information on how to apply. If you have any questions, please e-mail nyuad.engineering@nyu.edu.

Note: Several positions are open, subject to final budget approval.

About NYUAD:

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complemented by a network of eleven research and study-away sites across five continents. Faculty and students circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its seventh year, NYU Abu Dhabi has recruited a cohort of faculty who are distinguished in their research and teaching. NYU Abu Dhabi’s highly selective liberal arts college is complemented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering. The Engineering Division also takes pride in a thriving doctoral program, as well as in the postdoctoral researchers who have chosen to make NYUAD their research home.
