POSTDOCTORAL ASSOCIATE POSITION

Chemistry and Materials Science
NYU Abu Dhabi

The Division of Chemistry at New York University Abu Dhabi is inviting applications for a fully funded postdoctoral associate position in the area of chemistry and materials science with interests in smart materials, solid-state chemistry, photochemistry, photophysics and laser physics.

The postdoctoral associate will work under the supervision of Dr. Panche Naumov (http://nyuad.nyu.edu/en/research/faculty-research/naumov-group.html) on the preparation and physico-chemical characterization of smart materials. The lab is well equipped with state-of-the-art facilities for X-ray diffraction, spectroscopy, electron microscopy, materials characterization, and organic synthesis. Moreover, the postdoctoral associate will have access to the core research facilities of NYUAD.

Applicants must hold (or be close to completing) a Ph.D. in chemistry, materials science or physics (laser physics).

Review of applications will begin immediately and will be considered on a rolling basis. Please visit our website at http://nyuad.nyu.edu/about/careers/faculty-positions.html for instructions and information on how to apply. To be considered, all applicants must submit a cover letter (with expected date of availability), a curriculum vitae with full publication list, a statement of research interests and three representative publications, all in PDF format. To complete the online process, applicants will be prompted to enter the names and email addresses of at least three referees. Each referee will be contacted to upload their reference letter. If you have any questions, please e-mail pn21@nyu.edu.

The preferred start date is September 1st, 2016. An earlier or later start date is possible based on the needs of the applicant. The duration of employment is for one year with the possibility to renew based upon performance. This position is based in Abu Dhabi (U.A.E.). The terms of employment are competitive and include housing and other benefits.

About NYUAD:
New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complimented by a network of eleven research and study-away sites across five continents. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its sixth year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complimented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.
