POSTDOCTORAL ASSOCIATE POSITION
Psychology
NYU Abu Dhabi

The Psychology Department at New York University Abu Dhabi is inviting applications for a fully funded postdoctoral associate position in the area of Psychology with interests in human perceptual and motor systems.

The postdoctoral associate will work under the supervision of Dr. Robert Volcic (http://volcic.github.io) and will carry out behavioral studies on human multisensory perception (mainly vision and touch) and action (reaching and grasping). The lab will be equipped with a state of the art system for 3D visualization, a head tracking system, and a motion capture system for monitoring reaching and grasping movements. Moreover, the postdoctoral associate will have access to an eye movement tracker, and to fMRI and EEG facilities.

Applicants must hold (or be close to completing) a Ph.D. in Psychology, Cognitive Science, Neuroscience, Biology, or related fields. Prior experience in vision/haptic/motor research is important as is programming efficiency.

Review of applications will begin immediately and will be considered on a rolling basis. Please visit our website at http://nyuad.nyu.edu/about/careers/faculty-positions.html for instructions and information on how to apply. To be considered, all applicants must submit a cover letter, a curriculum vitae with full publication list, a statement of research interests, representative publications, expected date of availability, and names of two referees, all in PDF format. If you have any questions, please e-mail robert.volcic@nyu.edu.

The preferred start date is September 1st, 2016. A later start date is possible based on the needs of the applicant. The duration of employment is for two years with the possibility to renew. This position is based in Abu Dhabi (U.A.E.). The terms of employment are competitive and include housing and other benefits.

About NYUAD:
New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complimented by a network of eleven research and study-away sites across five continents. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its sixth year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complimented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.
