POST-DOCTORAL RESEARCHER POSITIONS
Division of Science
Mathematics Program
NYU Abu Dhabi

The Division of Science at New York University Abu Dhabi is inviting applications for fully-funded postdoctoral associate positions within the mathematics program. Positions are available for up to two postdoctoral researchers with expertise in probability theory, statistical mechanics or related areas. The successful candidate will primarily interact with Prof. Federico Camia, but will also have the opportunity to collaborate with other members of the mathematics faculty, such as Profs. Alberto Gandolfi and Yves Le Jan, and with members of the mathematics and physics faculty at NYU Shanghai and NYU New York.

Candidates must hold (or be close to completing) a Ph.D. in Mathematics, Applied Mathematics, Physics, or a closely related field. To be considered, all applicants need to submit a curriculum vitae with full publication list, a statement of research interests, and two letters of reference, all in PDF format. For instructions and information on how to apply, please visit our website at http://nyuad.nyu.edu/en/about/careers/faculty-positions.html. If you have any questions, please email federico.camia@nyu.edu.

Review of applications will begin immediately and the position will be open until filled. The starting date is flexible and could be as early as April 2016. The position is intended to be initially for two years, and may be extended to a third year. Different arrangements may be considered under special circumstances.

Salary is dependent upon qualifications. NYU Abu Dhabi offers very competitive terms of employment including allowances for housing, transportation and home visits, in addition to health insurance and an attractive retirement plan.

About NYUAD:

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complemented by a network of eleven research and study-away sites across five continents. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

Entering its sixth year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complemented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.
