POSTDOCTORAL ASSOCIATE POSITION IN CELL BIOLOGY  
Research Group of George Shubeita  
NYU Abu Dhabi

The Shubeita Laboratory in the Division of Sciences at New York University Abu Dhabi seeks to appoint a Postdoctoral Associate starting immediately or anytime before Fall 2016. The successful applicant will study regulation of molecular motor-based intracellular transport. Motivated applicants with a strong background in cell biology, biochemistry, or biophysics and who are interested in leading cross-disciplinary research to study cytoskeletal motors are encouraged to apply.

Applicants must have received a Ph.D. in cell biology, biochemistry, biophysics or a related field or be within a few months from completion. Significant experience in one or more of the following is strongly desired: cell culture, live cell imaging, enzyme biochemistry, or single molecule assays. Prior research experience with cytoskeletal motors or prior experience with Drosophila genetics are desired but not required. Excellent communication skills in English, the ability to work in multi-disciplinary teams, and scientific creativity are essential.

NYUAD offers a stimulating research environment led by a distinguished research community and supported by state-of-the-art research facilities.

The terms of employment include a very competitive salary, medical insurance, housing allowance, and educational subsidies for children as well as other benefits. Applications will be accepted immediately and candidates will be considered until the position is filled. To be considered, all applicants must submit a cover letter, curriculum vitae including a complete list of publications, a one-page summary of research accomplishments and interests, and at least 3 letters of recommendation, all in PDF format. Please visit our website at http://nyuad.nyu.edu/en/about/careers/faculty-positions.html for instructions and information on how to apply. If you have any questions, please email nyuad.science@nyu.edu.

About NYUAD:
New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational degree-granting campuses: New York, Abu Dhabi, and Shanghai, complimented by a network of eleven research and study-away sites across five continents. Faculty and students will circulate within this global network in pursuit of common research interests and the promotion of cross-cultural and interdisciplinary solutions for problems both local and global.

In its seventh year, NYU Abu Dhabi has recruited a cohort of faculty who are at once distinguished in their research and teaching. Our students are drawn from around the world and surpass all traditional recruitment benchmarks, both US and global. NYU Abu Dhabi’s highly selective liberal arts enterprise is complimented by an institute for advanced research, sponsoring cutting-edge projects across the Arts, Humanities, Social Sciences, Sciences, and Engineering.
