A postdoctoral position in Synthetic Organic, Supramolecular, Material and Polymer Chemistry is available at New York University Abu Dhabi.

New York University has established itself as a Global Network University, a multi-site, organically connected network encompassing key global cities and idea capitals. The network has three foundational, degree-granting campuses: New York, Abu Dhabi, and Shanghai, complemented by a network of more than fifteen research and study-away sites across five continents. Faculty and students will circulate within this global network in pursuit of common research interests, the promotion of cross-cultural understanding and solutions for problems, both local and global.

In its second year, NYU Abu Dhabi has already recruited a cohort of faculty who are at once distinguished in their research and teaching. NYU Abu Dhabi’s highly selective liberal arts enterprise is complemented by an institute for advanced research, sponsoring cutting-edge projects across the arts, humanities, social sciences, sciences, and engineering.

Applicants must submit a curriculum vitae and the names and contact information for three references in PDF format to be considered. Review of applications will start immediately. Only shortlisted candidates will be contacted. Please visit our website at http://nyuad.nyu.edu/human.resources/open.positions.html for instructions and other information on how to apply. If you have any questions on applying, please e-mail Deirdre.tabak@nyu.edu.

Starting date: September 1, 2012.

Salary and benefits: competitive salary and benefits, including relocation, housing, and education, are offered.

NYU Abu Dhabi is an Equal Opportunity/Affirmative Action Employer.
