

Fast Path in Engineering (strong math preparation)

Sample Schedule

1-cr Engineering Ethics course to be taken preferably in sophomore spring

Year 1

Fall Semester

Foundations of Science 1	Foundations of Science 2	ECC: Computer Programming for Engineers	Multivariable Calculus
--------------------------	--------------------------	---	------------------------

January Term

ECC: Design & Innovation

Spring Semester

Foundations of Science 3	Foundations of Science 4	First-year Writing Seminar	Colloquium
--------------------------	--------------------------	----------------------------	------------

Year 2

Fall Semester

Linear Algebra	General Elective	General Elective	Core
Differential Equations			

January Term

General Elective
