## HISTORY OF NEW YORK UNIVERSITY

---

Since its founding in 1831, NYU has been an innovator in higher education, reaching out to an emerging middle class, embracing an urban identity and professional focus, and promoting a global vision that informs its 20 schools and colleges.

Today, that trailblazing spirit makes NYU one of the most prominent and respected research universities in the world, featuring top ranked academic programs and accepting fewer than one in eight undergraduates. Anchored in New York City and with degree granting campuses in Abu Dhabi and Shanghai as well as 13 study away sites throughout the world, NYU is a leader in global education, with more international students and more students studying abroad than any other US university.

NYU students come from nearly every state and 133 countries, and the university draws upon the diverse backgrounds of our faculty, staff, and students, ensuring its scholarship and teaching benefit from a wide range of perspectives. NYU takes seriously its role as an engine of social mobility, and stands out among the top US universities in its diverse student body, including low-income and first-generation students.

Now among the largest private universities in the US, NYU provides a rigorous, demanding education to more than 65,000 students and undertakes USD 1.27 billion in research annually. It counts among its faculty, recipients of the highest scholarly honors and is a top producer of patents and revenue from licensing among US universities. NYU has a vast network of alumni who have gone on to succeed across professions, from the sciences to the arts and government, throughout the world.

# HISTORY OF NEW YORK UNIVERSITY ABU DHABI

---

The groundwork for NYU Abu Dhabi was laid long before the students we celebrate today arrived on campus.

Conceived in 2007, the idea for the University was built on the goal to create a world-class American liberal arts and research institution in the United Arab Emirates, offering an unparalleled educational opportunity that would attract the brightest students and scholars from the Emirates and around the world.

NYU Abu Dhabi launched its first community educational program in 2008: the Sheikh Mohamed bin Zayed Scholars Program. This annual eight-month enrichment and leadership development program is for top undergraduate students enrolled in the UAE's three federal institutions of higher education. In July 2011, the University launched the Summer Academy, an 18-month program designed to strengthen the academic profiles of highly motivated Emirati high school students.

Also in 2008, The NYUAD Institute hosted its inaugural public event to launch its series of scholarly and public programs, including academic conferences, workshops, lectures, film series, and performances. The Institute offers a platform for intellectual discourse in the capital, and to date has hosted more than 1,300 lectures, conferences, screenings, and workshops.

Launched in 2010 as a world-class center of cutting-edge and innovative research, scholarship, and cultural activity, the Research Institute has established more than 80 faculty labs and projects, and 20 distinctive research centers led by accomplished thought leaders, spanning science, technology, and engineering.

In November 2013, Her Excellency Shamma Al Mazrui, UAE's Minister of Community Development, who was then a member of NYUAD's senior class, was recognized as the University's first Rhodes Scholar. Since then, 21 additional students have been selected to join the community of scholars at Oxford University.

In September 2021, NYUAD celebrated its 10-year anniversary. Students have gone on to hold positions in some of the world's biggest organizations and continued their education in some of the world's leading universities. Of all NYUAD graduates, 94 percent were in employment or further study six months after receiving their degrees. In just over ten years, NYUAD has grown to a student population of 2,200 from over 120 countries, speaking more than 115 languages.

## ACADEMIC HERALDRY

---

The caps, gowns, and hoods worn today by participants in these Commencement exercises follow the tradition of the attire of teachers and students in the Middle Ages.

Those who have earned the bachelor's degree wear a gown with semi-stiff yoke, long pleated front, and intricate shirring across the shoulders and back; the gown is also distinguished by long, pointed sleeves. The holders of the master's degree wear a similar gown, but the sleeve is square and closed at the end. Bachelor's and master's degree recipients wear the traditional square mortarboard with black tassel. Honors Scholars, baccalaureate degree recipients who have earned a 3.5 or higher cumulative grade point average based on a minimum of 30 graded credits, wear a distinctive gold tassel adorned with the New York University Honors Scholar emblem in cloisonné.

Those possessing the doctoral degree wear gowns with broad velvet panels down the front. This velvet trimming may be either black or the color of the field of learning represented by the degree.

Much of the color and meaning of the costumes is found in the hoods worn by holders of doctoral and master's degrees. These are silk-lined with the color or colors of the institution conferring the degree.

## HONORS

---

### NEW YORK UNIVERSITY HONORS SCHOLARS

The New York University Honors Scholar award (which is also known as the Founders' Day Award at NYU's Washington Square campus) is given to the top 40 percent of students in the graduating class. These students have emerged as exceptional scholars in NYU Abu Dhabi's highly selective and competitive academic community. University Honors Scholars wear a golden tassel in place of the standard tassel during Commencement.

### PHI BETA KAPPA

As a part of New York University, NYU Abu Dhabi's top students are considered for membership in NYU's chapter of The Phi Beta Kappa Society, the oldest academic honor society in the United States. Membership in Phi Beta Kappa shows commitment to the liberal arts and sciences, and to freedom of inquiry and expression. Weight is given to the breadth and depth of the student's study in the liberal arts, and they are required to complete coursework in certain specified areas as well as exhibit good moral character. The final selection for membership is by a committee of faculty in New York who are themselves members of Phi Beta Kappa chapters.

### GRADUATION HONORS

NYU Abu Dhabi, following the practice of US colleges and universities, awards honors based on the cumulative grade point average at the time of graduation. Summa cum laude (highest honors) is awarded to the top 5 percent of students within each division. Magna cum laude (high honors) is awarded to the next 10 percent of students within each division. Cum laude (honors) is awarded to the next 15 percent of students within each division. As final grade point averages were not available at the time of printing, these awards will be announced at a later date.

# ACKNOWLEDGEMENTS
