

NYUAD MEMORY PROJECT QUESTIONS AND PROMPTS

Intro

Could you briefly tell us about yourself: your home country, family, and/or community, and what your life was like before coming to Abu Dhabi?

Your Role at NYUAD

Describe your role at NYUAD and/or as a member of the community. If involved in a variety of activities, please share as many of those as you'd like.

Arriving at NYUAD/Joining the NYUAD Community

The first time that you arrived on campus, thinking back to that moment, how did you feel? What were your impressions? What was your experience of getting acclimated (to NYUAD, to Abu Dhabi)? When you talk about the NYUAD Community, how do you describe it? Or, how would you describe it to someone who has never seen it or experienced it?

Significant Milestones or Experiences

Are there any particular milestones or events in your (Division/Program/Department/Group/Class) that have taken place during your time at NYUAD, which you directly experienced? Any initiatives that would be important to add to the history of NYUAD?

Memorable Stories

Could you share with us a memorable moment or story from your time at NYUAD? Any traditions that developed during your time here, among your own cohort, or the community as a whole? Or did you develop traditions of your own that you identify with this place and time?

Involvements and Mentors

Outside of your primary role, what were some of your biggest involvements while you were here? How did those shape your NYUAD experience?

Who was a mentor to you, if anyone, while you were at NYUAD?

Final reflections

What is your "Why" (why did you choose NYUAD)?

How do you view the world now, as a result of being part of the NYUAD community?

Is there any question that wasn't asked today, that you would like to answer?
