Research Design & Causality in Social Science	SOCSC-UH 2212		4
Quantitative Data Analysis	SRPP-UH 3215		4
Total Units			4

Notes

BOS majors also need to adhere to the following guidelines:

- * A mandatory minor or second major is required. Students may declare any minor or major approved for NYUAD students to fulfil the minor or second major requirement. However, a second major or minor in economics or business-related fields will not satisfy the BOS requirement. Students who declare economics as a second major must complete a minor that is not economics of business-related.
- Students who declare economics as a minor must complete a second minor that is not economics or business-related. Second majors or minors that do not adhere to these exclusions will not be approved.
- *BOS will accept ECON-UH 2010 Intermediate Microeconomics as a substitute for Managerial Economics.
- *Courses that fulfill the Ethics requirement must have "ethics" in the title.
- *Students placing out of Markets via the Economics placement exam must take an additional elective credits to complete the degree. Students may substitute Intermediate Micro for Managerial Economics.
- *Students testing out of Calculus need not replace those credits to complete the major but may require additional credits to meet the 140 credit degree minimum requirement.
- *Courses counting as "Social Impact" electives at Stern may be used for one of the course requirements for the Social Impact Electives.
- *Students will utilize their general electives to complete a minor.
- *Students must choose from two Capstone tracks: Research Track (Prereq: BUSOR-UH 1016 Business Research Methods) or Entrepreneurship Track (Prereq: BUSOR-UH 1007 Introduction to Entrepreneurship).
- *Students must meet the 140 credit degree minimum requirement to graduate.
- *Students of the Business, Organizations and Society major will have access to a large pool of already existing courses offered by multiple Divisions at NYU Abu Dhabi. Students can also take approved courses at other global sites, notably NYU Stern and NYU Shanghai.
- *More information about Study-away sites can be found at : <https://www.nyu.edu/academics/studying-abroad.html>
- *More information about Study away pathways can be found at : <https://students.nyuad.nyu.edu/academics/global-education/study-away/study-abroad-paths/>
